

TECHNICAL REQUIREMENTS

Time Warp - The Music Of Rocky Horror

General:

In our experience we have for the most part found the house techs/sound companies as provided by host orchestras to be highly competent professionals who know and understand the needs of their orchestra and their performance venue. As such we are comfortable in trusting their recommendation and expertise. Conceptually all Jeans 'n Classics productions are designed to feature the sound of the orchestra and as such the band and the orchestra should be equally sharing the musical picture as opposed to the orchestra being mixed into the back ground. The following are simply guidelines.

Strings

- Contact mics on all strings is ideal
- If impossible separate mics per player or minimally 1 mic per desk

Winds

- One mic per wind

Brass

- One mic per brass instrument

Percussion

- Individual mics on the congas/bongos area
- Ambient mics on the "toys" for wind chime, tambourine etc, where the player can approach the mic
- Individual mics on the vibes/marimbas area
- Timpani and bass drums may or may not need ambient mics depending on the venue

Monitors

- Generally we are trying to create a quiet on stage sound in order to give front of house the optimum orchestral head-room. Therefore in-ear monitor systems are ideal for the band. (Some of our personnel will bring their own in-ear monitors).
- Small wedge monitors are preferred for the vocalists - five across the front line of the stage. In addition one for the Conductor. If you have additional monitors they would be beneficial near the brass and percussion sections.

Our drummer brings his own ears and mixer and will need 1 stereo XLR line (male) for monitor mix, instead of wedge (or 2 right/left XLR lines) - positioned on Hi Hat side plus 1 A.C. drop - positioned on Hi Hat side and 1 music stand (or mic stand)

We will need 10 separate monitor mixes for our personnel.

Note – It is very important that the monitor operator be sensitive to the orchestra in keeping the monitor levels as low as our personnel are comfortable with.

Soundman

- A set of scores can be provided for the soundman if required in order to follow the arrangements.

Special

Vocal mics required at both keyboard stations.

Lead Vocalist (s)

5 lead vocal mics required (cordless)

Drums

Standard Yamaha 5 piece

(Choose from any of the following, in order of preference):

- Recording Custom
- Maple Custom
